Profile

VFX and 3D Modeler artist experienced in background asset creation and specializing in visual effects in Houdini. Skilled with utilizing VEX programming and effects such as particle dynamics, fluid and pyro simulations. Seeking to apply and further hone these techniques and skills in production.

Summary of Skills

VFX CREATION

- Proficient with SideFX Houdini
- Capable of concept drafting and execution of FX in a highly notative and organized manner
- Familiar with program languages such as VEX, Python, Java and Javascript
- Experience with HDA creation in Houdini

DESIGN AND TEXTURING

- Responsible for drafting, modeling, uv unwrapping and texturing assets to be used in scenes with or without vfx
- Solid understanding of asset pipelining and it's use for setdressing a scene

CONCEPT CREATION

- Utilizes pureref files and collage techniques to properly outline, estimate, and manage project times while staying flexible to wanted or necessary project changes
- Experienced with creating storyboards for vfx and character oriented shots

COMMUNICATION

- Receptive to critical feedback and translate directional notes.
- Intrinsic drive to improve technical and artistic skills in and out of work.
- Team and culture oriented with enthusiasm for collaboration.

Professional Experience

Freelance Work 2019-2026
